SPRINGFIELD STREET DIRECTORY.

The Street Directory gives the location of each street, and shows what other streets, avenues or places run from or across it, with the number at which they intersect.

From this list the location of any number on a street can be easily ascertained. As, for instance, wishing to know at what part of Main street No. 310 comes, turn to Main street, and you find that Worthington street intersects at 298, right side, and Bridge street at No. 340, showing that No. 310 comes on the right side of Main street between Worthington and Bridge.

FIRE ALARM TELEGRAPH.

Instructions to Key Holders.—Key holders, upon positive information of a fire, will unlock the box, and, if the bell or the small bell in the box is not striking, pull the hook down to the end of the slide once and let go immediately. Do not strike an alarm when the bells or the small bell in the box is striking, for in that case the alarm is already striking, and to give a second one would confuse the firemen. After giving an alarm, remain, if possible, until the steamers arrive, to direct them to the fire. If you hear no clicking sound in the box after pulling the hook, go to the next box, and give the alarm from that.

Do not give an alarm for a fire at a distance, *nor for a burning chimney*. Do not strike the alarm more than once from the same box. Be sure the box is locked before you leave it.

CEMETERIES.

Church Street Graveyard—This is the oldest burial ground in the town, is well preserved, but it is almost impossible to decipher most of the inscriptions. Among those that can be read are "Nathaniel Dwite," died November, 1711, and Rev. John Wo dbridge, first minister of West Springfield, who "fell asleep June 10, 1718." No body has been deposited in these grounds since the beginning of the present century.

Town Hall Cemetery—This is a burying ground lying between Town Hall and Park Street Church, and was laid out about 1780. The first burial was that of Solomon Lathrop, 1787.

Meeting House Hill Cemetery—These grounds are owned by the First Church Parish. The first burial in it was in 1808. It contains a soldiers' monument, a brownstone shaft about 20 feet high, bearing inscriptions of thirty soldiers of the 10th Massachusetts regiment.

Catholic Cemetery—Is located at Mittineague, and although but about twenty years old, several acres of land are already covered with graves.

Do you think?

Do you know the difference between crucible and open hearth steel?

Do you know the difference between a steel forging and a casting?

Do you understand how a part of a bicycle made of forged steel is better than a part bent up out of sheet metal?

If you know these things, it will be easier for us to sell you a Victor bicycle.

You should know that bicycles are not advertisements, not name plates, not noise.

Bicycles are

First, Material;
Second, Work.

You can know all about your bicycle by carefully examining these two things.

Remember, most bicycles are made to sell; not to ride.

Few bicycle makers invite the rider to examine carefully into all material used before buying. We like this way of selling bicycles. The more you enquire, the better pleased we are.

Victor bicycles cost more to build than other bicycles, and they are worth more.

If you have a high grade neck, ride a high grade wheel. We prefer to say "Victor grade," since it means more.

Catalog on application.

OVERMAN WHEEL CO.,

128 Worthington Street, Springfield, Mass.

P. S. Did you know that the Overman Wheel Co. built the first bicycle in the world without castings?

Castings are one of the curses of bicycles.

Castings are cheap for the maker, but dangerous for the rider.

THE IMPROVED

Chadwick Copying Book

TRADE-MARK.

PATENTED OCTOBER 16, 1888.

These Books are made waterproof at binding and corners, and are provided with moistening pad and oil sheets, by the use of which a number of pages can be kept moist and ready for immediate use, DISPENSING ENTIRELY WITH WATER POT, BRUSH AND WET BLOTTERS. The pad is first wet with water, then placed in book, back of twenty or more sheets, and put in press until required for copying, when sheets will be found uniformly and thoroughly moist, and VERY SUSCEPTIBLE TO ANY COPYING INK.

The back of the book being waterproof prevents the moisture from working into the binding or into leaves already copied on, and by similar treatment of corners leaves do not stick together and prevent rapid handling. The paper in these books is of extra strength, so they can be readily handled without tearing.

WE MAKE ANYTHING WANTED IN THE LINE OF LETTER OR INVOICE COPYING BOOKS.

HEALING THE SICK

Making the lame walk, the blind see, and the deaf hear—without filling one's system with nauseous drugs; is what the invalid public is interested in. Any physician who can do these things, is in the eye of the public, a benefactor. Such is Dr. Parker, for he has demonstrated his wonderful power of animal magnetism over disease for years, at his residence, 127 Jefferson avenue, corner Chestnut street. His office has been filled every Friday, Saturday and Monday, with the lame, the blind and deaf, all being rapidly cured by this remarkable physician. Office hours, from 9 a.m. to 8 p.m. Consultation free. Remember the days, Fridays, Saturdays and Mondays.
